

ACTION TAKEN REPORT ON FEEDBACK 2023–24

The valuable feedback, opinions and constructive suggestions received from the stakeholders are carefully reviewed and analysed by the Feedback Committee. Based on these responses, necessary plans and developmental strategies are formulated to improve academic quality, infrastructure, student support services and the overall institutional environment. The college continuously strives to ensure quality education and holistic development by implementing stakeholder-oriented initiatives and improvement measures.

- Regular campus cleanliness drives were organized. Monitoring of campus hygiene was strengthened to maintain a clean environment.
- Efforts have been made to ensure better management and maintenance of canteen services.
- More career counseling programmes, workshops and awareness sessions for the students have been organized.
- Special attention are provided to slow learners through remedial classes
- The college has taken initiative to improve ICT-enabled teaching-learning facilities. New books, journals and reference materials are added to the library.
- Teachers were encouraged to participate in workshops, seminars and faculty development programmes. The college authority emphasized strengthening academic quality and research activities.
- The ICT cell of the college has been encouraged to publish E-Journal.
- Maintenance and improvement of classrooms and campus infrastructure were undertaken to provide a better learning environment.
